## ELECTRIC COOLER SLIDE

- Compact design to fit in shallow helm seat bases
- Anti-rack drive system
- IP67 rated
- Multiple Delrin wheels to avoid point loading
- T-316L and HPDE construction

## FOLDING BULWARK

- Available in electric or hydraulic designs
- Constructed from stainless steel or aluminum with AQUAMET shafts and locking pins
- Hassle-free installations
- Design allows for no hull penetration, keeping water out of bilge
- Accommodates multiple ladder and safety rail configurations

## PANTOGRAPHIC HINGES

- Constructed from T-316L stainless steel with self-lubricating bearings
- Available in three sizes with door weight ratings of 75lbs, 50lbs (pictured) and 30lbs
- Emulated from a robust yacht door design
- Available with custom OEM logo

## PUMP BOXES

- Internal and external pump boxes are now available in 2-6 pump configurations
- External lid flange helps keep fastener free of corrosion
- Finishes include electropolish, passivation and powder coating
- Constructed from heavy gauge T-316L

## COCKPIT BOARDING STEP

- Robust T-316L compact design fits under most gunwale caps
- Multiple widths available
- IP67 rated
- Uses: cockpit boarding steps, footrests and seating

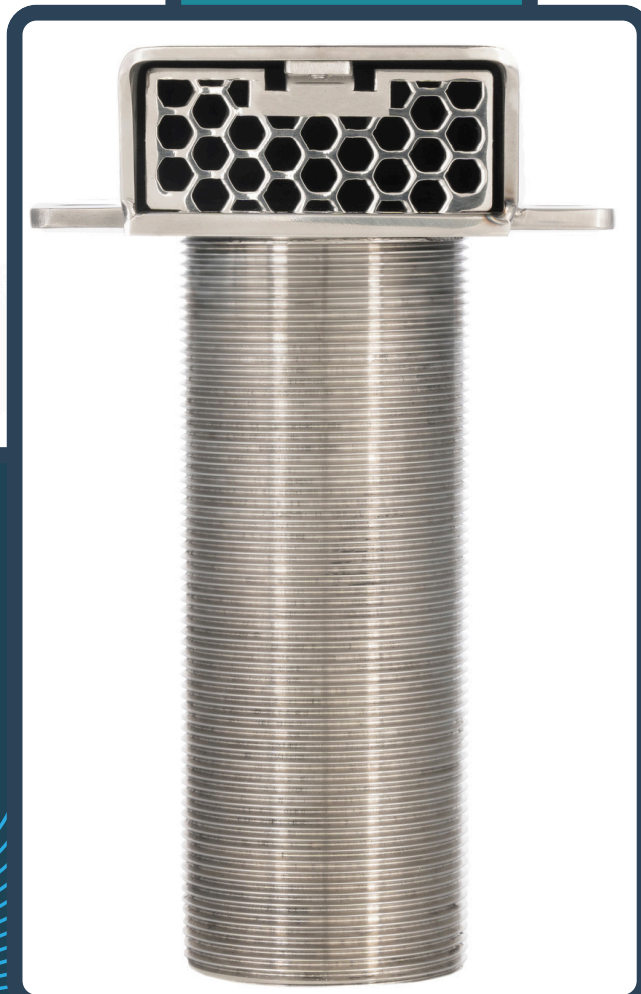

## DIVE DOOR HANDLES

- Tongue length longer than competing handles, offering additional strength and versatility in dive door shape and size
- Solid cast design made from T-316L stainless steel
- Surfed and recessed catches available
- Available in handle lengths of 6-1/2", 8" and 9-3/4"

## HIGH SPEED LIVEWELL PICKUPS

- Made from T-316L stainless steel
- Grate design offers more water flow than the competition
- Partial and full thread options available
- Available sizing from 3/4" up to 2"
- Passivated and mirror-polish finish
